

SEYADU BABU ALI S

Senior Mobile Engineer / Technical Lead

Email: babu.soft076@gmail.com | Mobile: +91-9629286458

Location: Tuticorin, Tamilnadu, India

PROFESSIONAL SUMMARY

Senior Mobile Engineer with 9.6+ years of experience delivering high-impact Flutter and Android applications for global brands. Proven success in architecting scalable mobile solutions, improving performance and stability, and leading cross-functional teams to ship business-critical features. Adept at building robust architectures, reducing crash rates, optimizing rendering performance, and driving engineering best practices.

CORE SKILLS

- Flutter, Dart, Bloc, Cubit, Riverpod, Provider, GetX
- Android (Kotlin, Java), MVVM, Jetpack Components, Coroutines, Flow, DI (Hilt, Dagger)
- Architecture: Clean Architecture, Modularization, SOLID Principles
- REST APIs, GraphQL, Firebase, Crashlytics, BLE, Deep Links
- Testing: Unit, Widget, Integration Testing
- CI/CD: GitHub Actions, Bitrise, AppCenter
- Tools: Android Studio, VS Code, Git, Jira, Performance Profiling

PROFESSIONAL EXPERIENCE

Senior Software Engineer (Flutter) – Altimetrik Technologies, Chennai

Sep 2023 – Jan 2026

- Led end-to-end development of new Flutter modules improving workflow performance by ~30% using rendering and API optimization.
- Implemented scalable navigation using Navigator 2.0 reducing code duplication and improving feature delivery timelines.
- Strengthened app reliability with Crashlytics monitoring achieving 99%+ crash-free sessions.
- Collaborated with design, backend, and QA teams to deliver enterprise-grade mobile solutions.

Associate Consultant (Flutter) – eNoah iSolution Ltd, Chennai

Aug 2021 – July 2023

- Built and maintained healthcare modules serving 500K+ active users across Android and iOS.
- Reduced crash rate by 22% through optimized memory handling, defensive coding, and structured logging.
- Led UI modernization initiative improving low-end device performance by 18%.
- Mentored junior engineers and reviewed architecture proposals for new modules.

Senior Software Engineer (Flutter) – RLabs Enterprise Services Ltd, Bengaluru

Feb 2021 – July 2021

- Developed reusable UI components and scalable state-management patterns for multi-app ecosystems.
- Improved API response handling with caching and concurrency best practices.

Senior Developer (Android, Flutter, Node.js) – 10Decoders Consultancy Services, Chennai

Apr 2018 – Dec 2020

- Built multiple Flutter and Android apps from ground up including BLE-enabled IoT solutions.
- Improved API processing efficiency by 40% using coroutine-based parallel pipelines.
- Implemented CI/CD automation reducing app release cycle from 2 days to under 4 hours.

Software Developer (Android) – Benchmark Business Software, Chennai

Mar 2016 – Mar 2018

- Delivered 2+ Android apps with modern UI, efficient networking, and optimized storage handling.
- Refactored legacy codebases improving performance, stability, and maintainability.

KEY PROJECTS

Samsung Shop – Global E- Commerce (Flutter/Android)

- Developed high-traffic global e-commerce features including recommendations, checkout, and tracking.
- Integrated REST/GraphQL APIs with caching and state-management for real-time data updates.
- Improved app stability achieving 99%+ crash-free rate across Android and iOS.

- Collaborated with 30-member cross-functional team ensuring seamless delivery of global releases.

CarePlaces (Altais) – Healthcare Platform (Flutter)

- Built secure messaging, contact management, and telehealth modules.
- Modularized architecture enabling faster feature rollout with clean separation of concerns.

Avis & Budget – Car Rental Platform (Flutter/Android)

- Developed rental management, location services, and preference-saving features.
- Optimized geolocation and map workflows reducing load time by ~25%.

Tablee – Hotel Management Platform (Flutter)

- Integrated FitPolo smart bands with BLE scanning and pairing workflows.
- Implemented real-time sync for guest-service interactions.

Aerobit – IoT Health Platform (Android)

- Integrated BLE sensors for asthma monitoring and automated data sync via SyncAdapter.
- Implemented background job scheduler improving UX and system stability.

EDUCATION

B.E. in Computer Science Engineering – Anna University (2012)

CGPA: 7.3

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief.
